

WHO WE ARE

Background

Founded in **1994**, Kavia started with presswork, the company expanded its capabilities over the years to include machining, **cold and warm forging**, and assembly lines. Kavia boasts an in-house R&D centre, toolroom, and has been awarded a **patent**. Today, we proudly serve as Tier 1 suppliers to Toyota and have amassed extensive experience in **exports** since 2003.

Values

At Kavia, we believe that investing in **people and technology** is at the heart of providing the highest quality engineered products at the most competitive prices, all while adhering to just-in-time delivery schedules.

Current Size

150 Employees
100,000 sqft+
5M-10M USD/yr

Tier 1 Customer

Toyota Motors

Tier 2 Customer

Ford, Kia, Hyundai,
Mahindra, Tata

PRODUCTS & SERVICES

Cold Forged Parts

We make Ball Stud, Case, CV Inner, Engine Mounts - Inner, Spider

Warm Forged Parts

Expertise in warm forged bevel gears

Tubular & Welded Assemblies

Expertise in Stabilizer Link & Watts Link

FACTORY & MACHINERY

Locations

FACILITY	SQFT
Jigani	39,000
Sira	65,000 (2027)

Key Machinery

1600 Ton Komatsu
250-1000 Ton Knuckle Joint
600 Ton Hydraulic Cold Forging
CNC Turning Centers (40+ units)
Carl Zeiss CMM

CHOOSE US

Special Purpose Machine

We can build special purpose machines to reduce cycle time and increase reliability.

Robotics Expertise

We use single piece flow with automation. We have robotic arms from Mitsubishi, Fanuc, ABB.

IoT Digital Factory

We use IOT dashboard to track production in realtime and ensure delivery compliance.

Certifications

ISO 9001 : 2015
IATF 16949 / 2016
ISO 14001 : 2015

Awards

Toyota Zero PPM Award
Iljin Excellent in Development Award
Iljin Best Quality Award
Iljin Best SQ Mark Award
